Job Opportunity Bulletin: # 03-188

Final Filing Date: July 21, 2004 or Until Filled

Position:

Associate Programmer Analyst Specialist
Application Developer

Salary:

\$4,316-\$5,247

Location:

Healthcare Information Division
Information Systems Section
818 K Street, Room 300
Sacramento 95814

ABOUT THE JOB: The Associate Programmer Analyst (APA) will serve as an Application Developer. In this role, the APA acts as the technical specialist for the design, development and maintenance of OSHPD's applications.

DUTIES: The incumbent acts as the application developer in the application services group and responsible for planning, designing, building, testing, implementing, and maintaining distributed multi-tier applications using Object Oriented Analysis and Design, Microsoft .NET framework, VB .NET, ASP.NET, ADO.NET, COM+, XML/XSLT, and Web Services. This involves the technical aspects of designing, coding, testing and installing mission-critical web and client server based applications, working closely and effectively with clients throughout the applications development life cycle, employing Object Oriented analysis and design and rapid application development methodologies to implement successful applications within budgeted costs and schedules, undertaking approved research and development projects to evaluate and test new and emerging IT products and tools, and collaborating work activities of a virtual team comprise of in-house technical specialists, Internal Network and Help Desk technical staff, and external Information Technology (IT) consultants.

SELECTION CRITERIA: The APA must have in-depth IT knowledge with respect to information systems concepts, practices, methods, principles; distributed Internet web-based applications; system architectures and configurations, load balancing and clustering; networking; and demonstrate the ability to apply that knowledge to collaborate and/or coordinate work on the complex technical problems and issues.

QUALIFICATIONS:

- Knowledge of Microsoft Visual Studio .NET
- Web, Database, and Server Administration Skills
- Knowledge of Object Oriented analysis and programming
- Knowledge of XML, XSL and Web Services
- IT Security

DESIRABLE QUALIFICATIONS:

- MS Visual Studio .NET
- MS SQL Server Database Programming (TSQL)
- MS Windows
- MS IIS, MS SQL Server, ORACLE Administration and Tuning

WHO MAY APPLY: Applications will be accepted from individuals currently in this classification or individuals who have list, transfer or reinstatement eligibility. Only the most qualified candidates will be interviewed. Appointments are subject to SROA/Surplus policies.

Interested individuals should submit a State Examination and/or Employment Application, STD-678 and resume to:
